

What we do

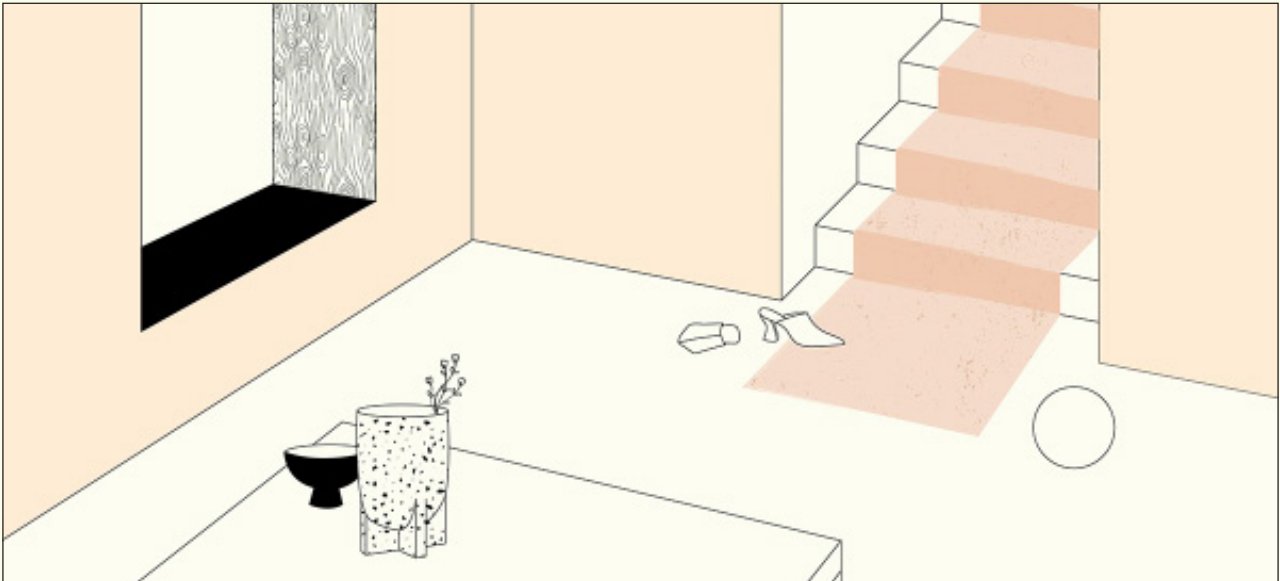

Rugs

Our rugs allow you to shape the most diverse interior moods. Whether you choose the expressive designs in our Chroma Collection or prefer the timeless colours and textures of our Essential Collection: we have something that will appeal to your exquisite taste.

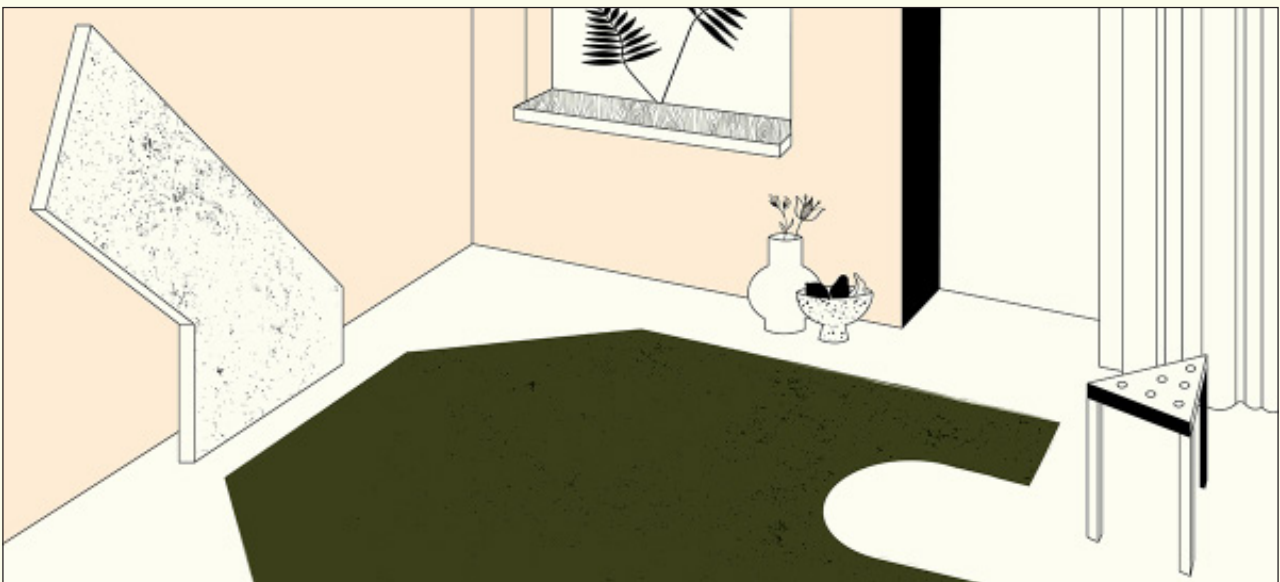

Carpeted floor

Our carpets cater to many needs; whether you are looking to enhance a residential project by adding colour and texture, or seek robust flooring for a commercial project. A plethora of yarns, colours and finishes in combination with our agile manufacturing guarantees that you will be able to translate your vision to a delightful result.

Runner

Our runners are used to give hallways and staircases an extra touch and functionality. They catch dirt, silence sounds and look great while doing it. By using the sturdiest, thoroughly tested materials, we ensure they will stand the test of time.

Custom

Do you have a strong creative vision? Are you looking for a partner to make it real? Talk to us! Whether you are looking for ... custom colours, special patterns, specific yarns, piles or looks, our in-house design section will do its utmost to bring your creative project to life. We will advise you on colours, yarns, weaving or tufting techniques. With our prototyping loom, we can make samples before jumping to production. Trust us: we love a creative challenge! Send us an e-mail or call us, we will be delighted to help you out.
